

## AS-120MF- - Features and Benefits

- With metric and imperial conversion
- Auto switch off and manual shutdown
- With average value calculation function
- With low battery alarm indicator & With maximum value stored
- Use USB data output with connection PC(Optional)
- Provide Bluetooth data output choice(Optional)

### OverView

Memory Foam Hardness Tester AS-120MF, special for memory foam hardness measurement.(memory foam is also known as slow rebound sponge, space zero pressure, space foam, TEMPUR material, low rebound sponge material, viscoelastic, used in high velocity of aerospace, aviation, equipment, high-end consumer goods.)

Measurement Range	AS-120MF
Accuracy	≤±1HMF
Resolution	0.1HMF
Range	10~90HMF
Spring force	455gf
Sensor Head Diameter	25mm
Sensor Foot Diameter	80mm
Case	High impact ABS
Operating Temperature	0~40°C
Power Supply	2x1.5vAAA Um-4 Battery
Dimension	176x80x80 mm
Weight	250 g (Not including batteries)
