PDF Temperature Data Logger

YMP-10D / YMP-11D / YMP-11LT

These data loggers are ideal to monitor the temperature in transportation, storage and testing process. Recording can be started and stopped by pressing the button. User can get PDF reports by connecting the device into PC without any software or driver.

- Generate PDF report without any software and driver
- Built-in USB interface
- LCD shows recording status, readings, limit and alarm indication
- 6 mark points supported
- User configurable
- LED status and alarm indication
- Low battery warnings
- Internal probe
- To save as txt / csv / xls / dlg file via PC software
- Password control
- Re-calibrate supported

YMP-10D
Device with battery and internal sensor, CD, manual

YMP-11D
Device with battery and internal sensor, CD, manual

YMP-11LT
Device with battery and internal sensor, CD, manual

Specifications	YMP-10D	YMP-11D	YMP-11LT
Use type		Multi-use	
Measuring range		-30~70°C (internal probe)	-40~70°C (internal probe)
Accuracy	±0.5°C	±0.3°C(-10~65°C) ±0.5°C(others)	±0.3°C(-10~65°C) ±0.6°C(others)
Resolution		0.1°C	
Readings memory		30240	
Sample interval		10sec. to 18hours	
Battery life		2 years(25°C, 15min. interval)	
High and low alarm		User configurable	
Alarm delay		0~960min.	
Alarm type		Single type; Accumulation type	
Start delay		0~254min.	
Start mode		By button	
Stop mode		By button; Memory full; When into USB	
Operation environment		Same as measuring range	
Storage environment		Same as measuring range	
Size / Weight / Case material		75mm*28mm*10mm / 20g /ABS	
Protection class	IP40		IP44
Standards / Certificates		CE	
Communication int erface		Built-in USB 2.0	
Power supply	CR 2032 3.0V lithium battery, factory replaceable		3.6V lithium factory replaceable
Warranty		12months
